## Projects

**Student Management System** Java, Spring Boot, MySQL

- Designed and developed a RESTful backend application using Spring Boot and MySQL for efficient student record management.
- Implemented CRUD operations using Spring Data JPA and Hibernate to ensure reliable database interaction.
- Tested REST APIs using Postman and managed version control using Git and GitHub.

**AI Mock Interview System** Java, Spring Boot

- Built a role-based interview management backend using Java and Spring Boot.
- Developed REST APIs to generate and retrieve interview questions dynamically.
- Applied modular backend design and validated endpoints using Postman.

## Problem Solving

Solved 150+ coding problems on GeeksforGeeks and LeetCode covering Data Structures, Algorithms, Java, SQL, and logical problem solving.

## Certifications

- ServiceNow Certified System Administrator (CSA)
- Oracle Generative AI Professional
- Salesforce AgentForce Specialist

## Strengths

- Strong analytical and problem-solving skills
- Excellent verbal and written communication
